

# Abdelrahman Attallah

## Frontend Developer

### About Me

I specialize in building responsive, user-centric web applications with a strong foundation in React.js, Next.js, and modern UI frameworks like Tailwind CSS. My focus is on creating intuitive and visually engaging interfaces that elevate user experience. I'm seeking a full-time opportunity as a frontend developer, where I can apply my skills and contribute to dynamic, impactful projects.

#### Blog Platform with Full CRUD and Admin Management

mar, 2024

This full-stack blog platform, built with React and Next.js, offers a complete CRUD system via an admin dashboard for total content control. MongoDB ensures fast, reliable data storage, while server actions and NextAuth enable secure, session-based authentication. Protected routes maintain security, allowing only authorized users access to sensitive areas, making it a scalable, robust solution for content management and user interaction. [Live Demo](#)
